

REMARKS

After amendment, the pending claims are 13-17, 21, 24-28, and 30-35.

The claims were amended to delete subject matter previously allowed in US Patent Application Nos. 09/769,585 and 08/875,228, now US Patent No. 6,211,335 and to recite another embodiment of the invention. Support for the amendments to the claims is found in the specification as filed. No new matter is added by these amendments.

The amendments to the specification were made to insert the cross-reference to related applications, to correct clear typographical errors, and to place the application in conformance with 37 CFR § 1.77(c) by removing bolding and underlining from the sections headings. No new matter is added by these amendments.

The attached Abstract of the Disclosure finds support throughout the specification of this application. No new matter is added.

Respectfully submitted,
